

## 6th Grade Maroon Team Science

Cows Rule!

**Welcome 6th graders!**

I am so glad to get the opportunity to be your teacher.

I have been a Bulldog since 2000! My Big Spring career started out as a 2nd grade teacher at Oak Flat. I made the change to middle school a few years later. Teaching 7th grade science was wonderful then I moved to 6th grade science where I am now. I love teaching science! Everyday is different and my students teach me so many things.

I have a Recreation and Parks degree from The Pennsylvania State University. I also earned a teaching degree from Wilson College and a Master's of Science degree from Lebanon Valley College.

**Be a scientist everyday and never stop learning!**
