General Content: English

Big Spring School District has partnered with Paper to provide unlimited access to trained tutors so every student can ask questions, work through problems, and grow their confidence. Paper is currently available for all Big Spring students in grades 5-12 and they will log in using Clever.

[Paper](#) is an online, on-demand tutoring service that provides students with unlimited, 24/7 academic support. Whether they're stuck on homework, studying for a test, or need someone to read and make suggestions to their writing, there will always be experts available online to assist students one-on-one in [all subject areas](#). See the [Paper FAQs](#) to learn more.

[Paper tutors](#) have been specially trained to conduct expert, academic support in a secure, chat-based platform. With a commitment to helping students learn, they'll never give students answers, but rather facilitate deeper learning by asking guiding questions and providing timely encouragement.

Live chat: Students have 24/7 unlimited access to high-quality individualized tutoring via chat. When students hit a stumbling block on an assignment, they can connect with a tutor in under a minute and ask any academic question, any time across all subjects. Students simply type in their question, upload a file or draw out the problem on the whiteboard.

Writing feedback: Students can receive feedback on their writing assignments to strengthen their writing skills. They can upload any type of written work to receive revisions from tutors within 24 hours. During the revision process, tutors highlight areas the student can improve and explain why, focusing on writing elements such as content, organization, citations and grammar.

PaperLive: PaperLive offers entertaining and educational live video content for students after school to help them build learning momentum outside of the classroom. Students can access this resource for free within their own Paper dashboards and participate in a variety of classes from astronomy to financial literacy.

Parents/Guardians:

Find out how Paper can support your students before, during, and after school hours! Visit "The parent guide to implementing Paper" site where you can become familiar with Paper and their

tutors, explore the student dashboard, and access activity packs that you can use to support your students during tutoring sessions. For more information about Paper, be sure to sign up for a free parent webinar on the Paper parent page!
