DEPARTMENT OF AGRICULTURE

BUREAU OF FOOD DISTRIBUTION

DATE: August 31, 2016
TO: Recipient Agency
FROM: Michelle Troutman
SUBJECT: Agency Summary Report

Enclosed please find the Agency Summary Report (ASR) for the fiscal year **July 1, 2015 to June 30, 2016**. The ASR summarizes USDA commodity activity and can be used to help reconcile the commodity value received by your agency and reported on your Single Audit Report.

The first section of the ASR under the heading "FROM DISTRIBUTOR" lists by commodity code, the number of "Units Received" (in cases) and also the dollar "Value Received" during the program year. The Units Received and the Value Received reflects what was actually delivered by the commercial distributor between July 1, 2015 and June 30, 2016.

The second section of the ASR under the heading "FROM PROCESSOR" (if applicable to your agency) lists by commodity code, the number of "Units Received" (in pounds) and also the dollar "Value Received" during the program year. The Units Received in pounds reflects the raw commodity that was processed and delivered in a finished product through purchases from commercial distributors under Net Off Invoice, Fee For Service, or Rebate. The processor Value Received is the dollar value of the raw commodity only, not the dollar value of the finished product received.

The "TOTAL USDA COMMODITY VALUE RECEIVED" is the total dollar value received from the "Distributor" section and the "Processor" section added together. This dollar amount will be forwarded to the federal government for audit purposes.
