**TO** : Dr. Richard Fry, Superintendent  
**FROM** : Joshua Putt HVAC Technician/Asbestos Supervisor  
**SUBJECT:** District Administration Center (Annex) Semi-Annual Asbestos Update  
45 Mount Rock Road  
**DATE** : Jul 1, 2018

---

In accordance with state and federal asbestos management guidance, I have compiled all available data during the last six months (Dec 31st, 2017- Jul 1, 2018) and find that the asbestos has remained basically intact for the last six months.

All known asbestos was abated from this building during the 2005 renovation. The VCT floor covering in the attached old band complex was abated by First Capital Insulation Inc. in the summer of 2018.

Compliance Management International conducted our triennial re-inspection and management plan on July 28<sup>th</sup> of 2016. The next triennial inspection is schedule for 2019. A copy of the report is available in the district office and will be made available to the public upon request. Asbestos Hazard Emergency Response Act (AHERA), law requires each school, kindergarten through twelfth grade, to maintain these reports with their asbestos plan, and a copy at the school which will be available to the public.
