Building and Grounds Department
43 Mount Rock Road
Newville, PA 17241
717-776-2000 Ext. 1603

TO : Clarissa Nace, Principal
FROM : Tim Drawbaugh, Maintenance Director
SUBJECT: Middle School's Semi-Annual Asbestos Update
DATE : Jul 1, 2019
CC : Dr. Richard Fry, Superintendent

In accordance with state and federal asbestos management guidance, I have compiled all available data during the last six months (December 31, 2018 – July 1, 2019). During this time all asbestos containing materials have been removed from the building.

Most of the asbestos containing products were removed by December 15, 2005 prior to the complete renovation of this facility. The asbestos remaining in the auditorium including the wall chases, VCT tile, and upper wall acoustic materials was abated by American Capital Insulation Inc. during June, July and August of 2018.

The Big Spring School District certified asbestos supervisor conducted the triennial re-inspection and management plan on July 1, 2019. The next triennial inspection is scheduled for 2022. Asbestos Hazard Emergency Response Act (AHERA) law requires each school, kindergarten through twelfth grade, to maintain these reports with their asbestos plan, available to the public. A copy of the report is available in the school office and will be made available to the public upon request.
