SUBJECT: Oakflat Elementary Semi-Annual Asbestos Update
DATE : Jul 1, 2019
CC : Dr. Richard Fry, Superintendent

In accordance with state and federal asbestos management guidance, I have compiled all available data during the last six months (December 31, 2018 – July 1, 2019). The construction of Oakflat Elementary post dated the use of construction materials containing asbestos. Oakflat does not contain any asbestos.

The Big Spring School District certified asbestos supervisor conducted the triennial re-inspection and management plan on July 1, 2019. The next triennial inspection is scheduled for 2022. Asbestos Hazard Emergency Response Act (AHERA) law requires each school, kindergarten through twelfth grade, to maintain these reports with their asbestos plan, available to the public. A copy of the report is available in the school office and will be made available to the public upon request.
